PRODUCT MERCHANDISING

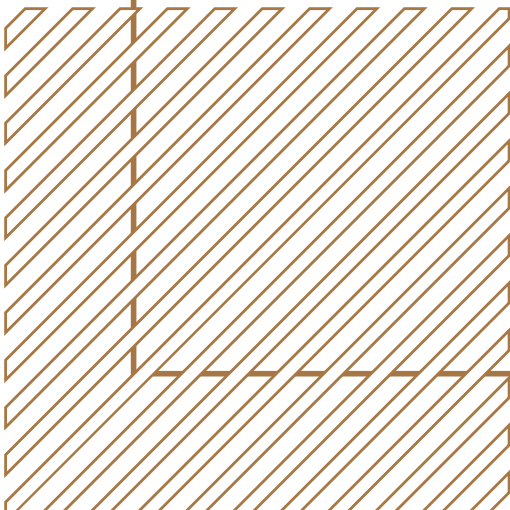

SOS strategically selects specific pieces from a wide range of manufacturers to stay within budget without sacrificing quality or aesthetics. We have identified specialty manufacturers with high standards at a fraction of the cost in comparison to many of the wide-known brands.

Our expertise in merchandising product from multiple sources is a key driver in achieving spatial goals including cost, design, and function.

DISCOUNT NEGOTIATION

Through developing strategic partners, SOS negotiates bundled discounts supporting procurement from high-end, luxury brands at significantly lower prices.

Combined with our knowledge of specific lines and pieces from major manufacturers, SOS skillfully develops custom furniture packages, holistically achieving our clients' goals.

SUPPLY CHAIN SOLUTIONS

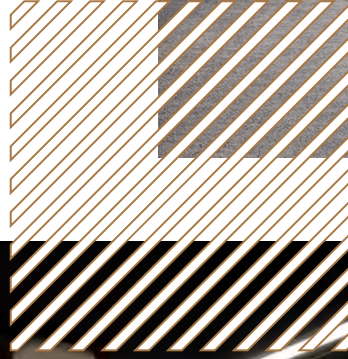

The global supply chain crisis continues to disrupt and complicate timely access to product. This has resulted in extremely extended manufacturing lead-times, many upwards of 15-20+ weeks.

SOS offers solutions spanning all budgets, aesthetics, and schedules with exclusive access to a wide range of suppliers.

Our multi-faceted strategy includes:

- Quick-ship alliances
- Independent market resources
- In-stock furniture selections
- Detailed product skew knowledge
- Proactive product alternatives
- Daily monitoring of manufacturing lead-times

We successfully complete projects while saving time & money.
